KARTH
WOOD MARK

Mark of Excellence

About Us

From Heritage Hands to Precision.

For over three decades, **Vishwakarma Wood Works** has been a trusted name in the art of wood. As we grow, so does our technology. We are proud to introduce **Karth Wood Mark**, our sister company focused on the future of woodworking.

By running both companies together, we offer a unique hybrid service: the wisdom of 34 years of experience combined with the speed and detail of the latest laser & CNC machinery.

From large-scale structural work to intricate laser cutting & engravings, our dual expertise ensures a finish that stands the test of time.

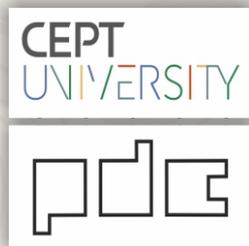

With strong expertise in laser & CNC technology, we specialize in creating visually striking and functionally strong products for residential, commercial, and corporate spaces.

Every project is handled with attention to detail, material quality, and design accuracy.

From signages, flex banner, hoarding, home decor products, customised gifts to nameplates and installations, our work blends modern design, advanced machinery, and skilled workmanship to deliver long-lasting results.

With a customer-first approach, timely execution, and consistent quality standards, **Karth Wood Mark** has earned the trust of architects, interior designers, builders and business owners who value precision, aesthetics, and dependable service.
